

The List: Kings of Oldsmobile Power© 10-1-2013

Created and Maintained by Scott Bares, Minneapolis, MN (Oldsman on RealOldsPower.com) © 2003 Photos used with permission and/or attributed.

The List ranks current running cars/dragsters that are corporate Olds powered based on ET. DRCE and Rocket Block based motors are not eligible. The data were collected from the owners of the vehicles. Participants must supply all required data including name, location, month and year of the pass.

Vehicle weight includes driver. All Elapsed Times are for the 1/4 mile. 'Stock' suspension is defined as any type trailing arm in the stock mountings, including NHRA defined systems, no-hop, SSM, etc. Use of air bags, coil over conversion kits, after-market anti-roll bars and adjustable shocks are included in this category. The Block category contains a "350N" abbreviation; this represents the use of a 350 NASCAR block.
